

Make Training Data Your Competitive Advantage

Computer vision and machine learning breakthroughs are reinventing the way that consumers interact with their homes, media, and businesses.

Proliferation of real-time data from sensors in smartphones, wearables, smart home appliances

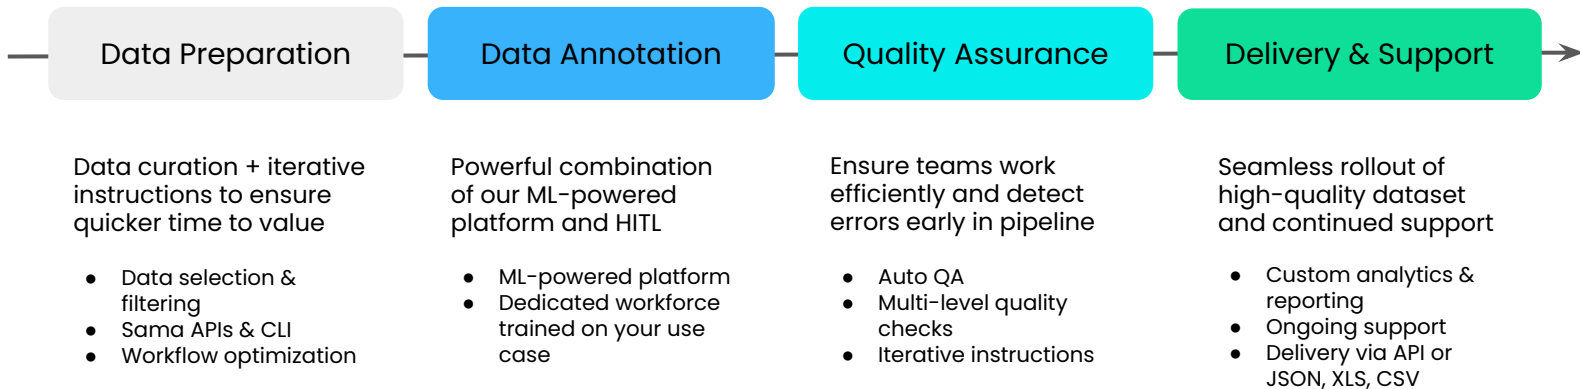

Increased internet penetration and access supports the functioning of consumer IoT

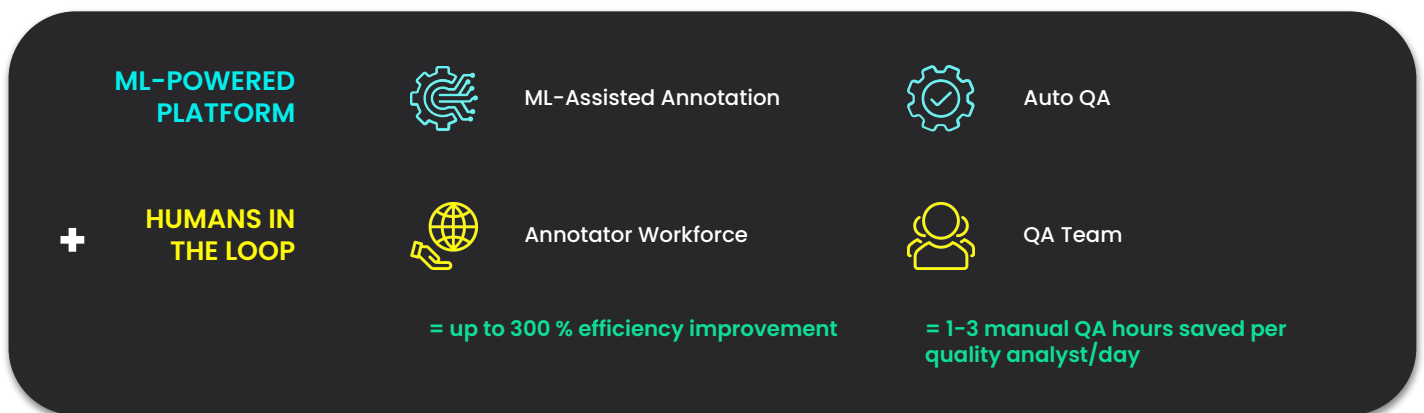

Rising adoption of smart devices and increase in the demand for a more personalized lifestyle

Your partner for the full data training lifecycle

A powerful combination of our ML-powered platform and Humans in the Loop allows us to deliver high quality labels and up to 300% efficiency improvements

Annotation Capabilities

Computer Vision

Vector Annotation for 2D Images

Vector Annotation for Video

Semantic Segmentation for 2D Images

Cuboid Annotation for 3D LiDAR Point Cloud Data

VOLUMENTAL

CASE STUDY

Accurate Data Labeling Powers the Volumental Shoe Sizing App

Results

Sama worked with Volumental to deliver high-quality labeled data to power their technology:

- **Pixel-perfect labels** with an average Quality Score of 97.84%
- **Open feedback loops** to catch and account for edge cases

97.8%

Average Quality Score

“Having worked with different cloud providers where the staff doing the actual work was always very hidden from us, we appreciated the transparency and social sustainability of Sama.”

— Mikael Andersson, Sr Product Owner at Volumental

Why Sama?

Quality

We offer the highest quality SLA (>95%). Our team assists with implementing a robust quality rubric and raising edge cases.

Scale

We quickly adapt to ramp-ups, focus shifts, and edge cases, with change frequency of up to 2-3x/week per workflow.

Ethical AI

As an ethical AI company we have provided economic opportunities for over 54,000 people from underserved and marginalized communities. [Read the MIT RCT Study.](#)

Security

We don't use your data to train models for other clients. Our delivery sites are ISO certified and employ biometric security. Sama is also CCPA and GDPR compliant.
